

Viscosity of D-63153 dispersions as a function of  
the standing time after reconstitution

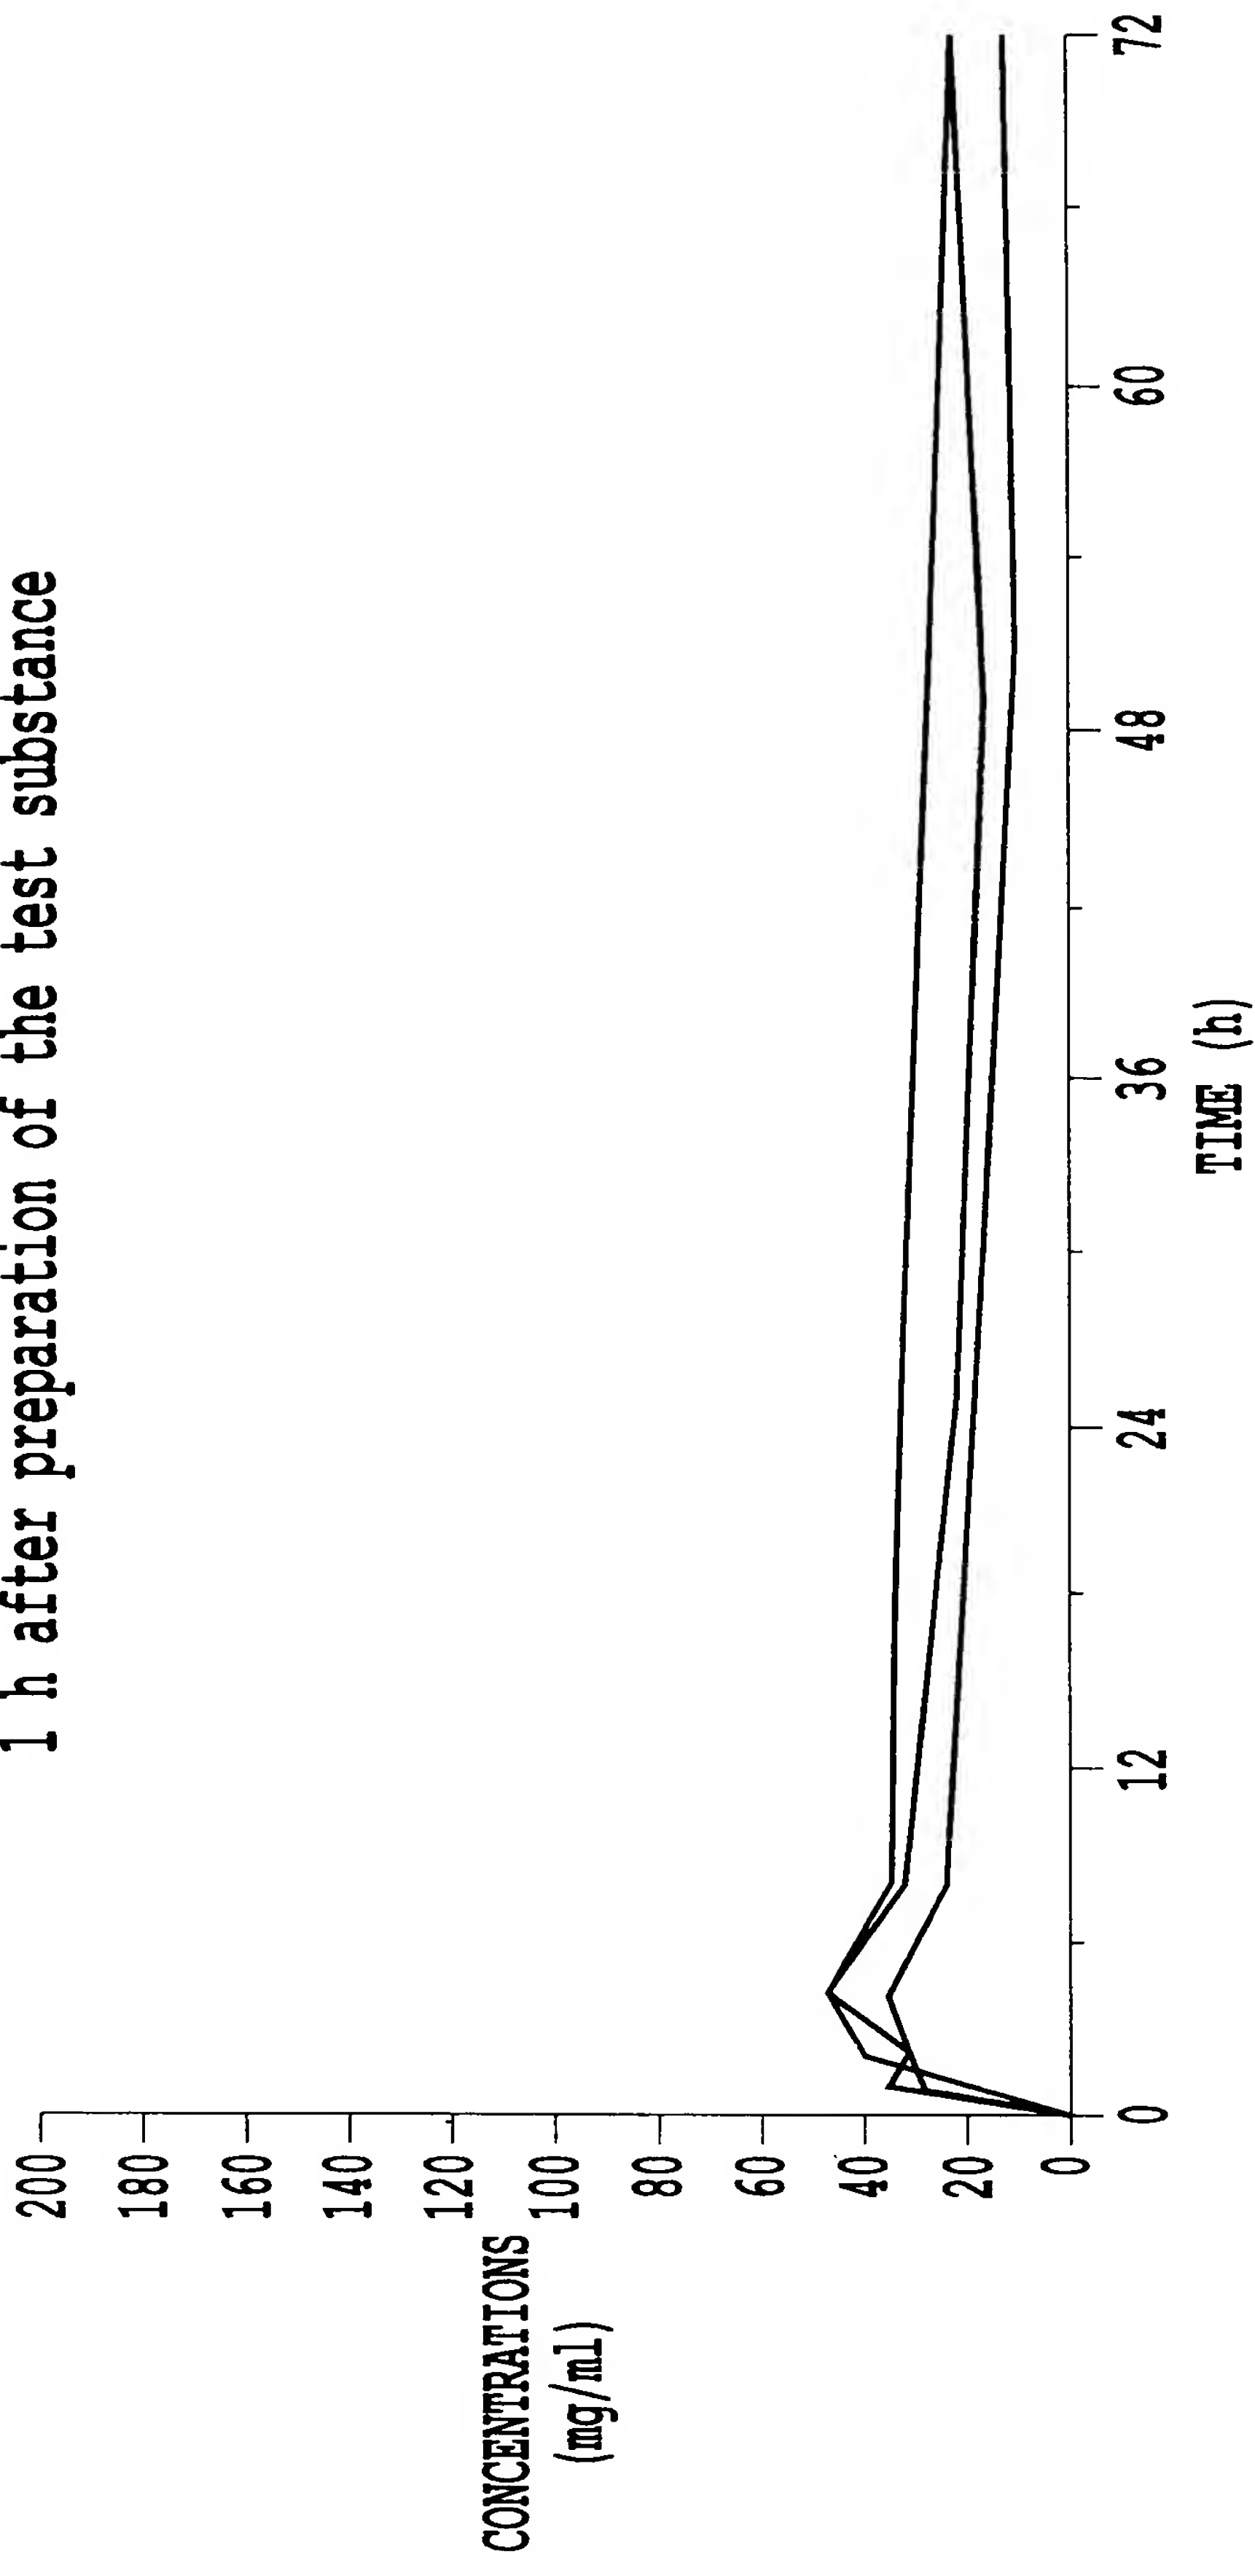

*Fig.3*

Plasma concentration of D-63153 after s.c. administration  
of 65mg D-63153 dissolved in 2.6ml 0.1% NaCl solution,  
immediately after preparation of the test substance

**Fig. 4**

Plasma concentration of D-63153 after s.c. administration  
of 65mg D-63153 dissolved in 2.6ml 0.1% NaCl solution,  
1 h after preparation of the test substance

**Fig. 5**
